What We Do

Axis Sourcing is a global source for architectural materials and systems. Oftentimes, products are specified that meet the design requirements of a project however fall outside of the budget milestones established by the project team. Axis Sourcing, through its worldwide presence identifies sourcing for specified materials that represent value-based quality solutions for the architect and the project team. As your sourcing consultant, all transactions are transparent. We are an advocate protecting your interests and delivering materials and systems research to logistics.
